In This Life

Dirty Vegas

If this is all I have, if this is all I have
If this is all I have in this life, in this life
In this life, in this life
And if I could, then I would try and make things better
And I show you, and control you, be the sunshine
Sunshine on your face, on your face, on your face
Remember, surrender, feel the sunshine on your face
And I show you, and I know you?ll be the one I found
That meets me there, meets me there, meets me there
This is all I have, if this is all I have
If this is all I have in this life, in this life
In this life
And if I could, then I would try to make this better
And I know you and I show you, feel the sunshine
Sunshine on your face, on your face, on your face
This is all I have, if this is all I have
If this is all I have in this life
This is all I have, if this is all I have
If this is all I have in this life, in this life
In this life
In this life, in this life
