

# Cloud 9

## Hermitage Green

The church was packed with those who don't need to pray  
Lonely clouds on a clear blue day  
You're in a shop full of people who's money proved no use  
It's worthless now like lies or better half truths You're there every sleepless night  
Every burning day  
You're there during every fight  
Guiding me on my way  
Woo oh oh oh oh /3x  
I'm sure you're perched right in front of a bar  
Which gathers the coins of all those near and far  
I'm sure you set the mood with what you say  
Those lucky folks I'd swap place any day You're there every sleepless night  
Every burning day  
You're there during every fight  
Guiding me on my way  
Woo oh oh oh oh /3x Our time on cloud nine is short in the extreme Shorter than it seems  
And so as grass grows  
We'll enter the next scene  
Wait for what life brings  
Woo oh oh oh oh  
You're there every sleepless night  
Every burning day  
You're there during every fight  
Guiding me on my way  
You're there every sleepless night  
Every burning day  
You're there during every fight  
Guiding me on my way  
Woo oh oh oh oh /x2
