Work It

Nelly

Let's go ohBaby show something
Don't say nothing (don't you say a word)
I just want to see you work it (come on baby work it for me)
That ain't fronting
Show me something (let me see it girl)
I just try to see you work it (I just wanna see you work it for me yeah)I heard her talking loud
But she ain't saying nothing
What up with all the fronting
Come on and show me something
You know you wanna do it
Go ahead yo man ain't coming
Please do that thing
When you dippin, keep yo hips poppin'
What's up with all these questions
And What planning baby
You talking to me, like you talking to an adolescence
I like to, jump off Jump off (clothes)
Come off come off
Her place, freaky beats and so on so on ey
Let you waist pop
When them place not
I rather watch to the top of snow clock
Can't even tell the time
But you know it's mine
What time is ma, it's 20 Karets, after nine
Are you dehydrated?
Well let me quench your thirst (check it)
But first thing first
Let's do what we rehearsed
Know them numbers now
It show be break break it
Get up and take a stance
And let me see yaBaby show something
Don't say nothing (don't you say a word)
I just want to see you work it (come on baby work it for me)
That ain't fronting
Show me something (let me see it girl)
I just try to see you work it (I just wanna see you work it for me yeah)She still talking loud
But she ain't saying nothing

Why you ain't moving ma
Dj ain't playing nothing
You tell him to, play this here
Until these speakers blow
Birthdays pick a place, baby we can go
I like yo adllics
She showing no back
She showing off her tats
You wouldn't know, it's slightly ghetto ghetto
She boojhetto jhetto
She 5'5, brown eyes
In stilleto letto (Baby)
Well did you come alone
Or you got 2 or 3
That ain't no thang
Baby girl 'cause, I got 2 with me
And we gonna all kick it
And you about to see
Just what a day would be
If you was in a ride with me
Turning on the headlights (and we be)
Running all the red lights
Those fool steal my head
And ain't no stopping now
Now come on here and drop it
And he gonna tell whyBaby show something
Don't say nothing (don't you say a word)
I just want to see you work it (come on baby work it for me)
That ain't fronting
Show me something (let me see it girl)
I just try to see you work it (I just wanna see you work it for me yeah)Now all my mid west shorties, come on do that thang

Just like that Biggie guy
'Cause she been, trying to prove her point since we been inside
So we can get it on
Just wait to we get home
