Every Night

Josef Salvat

Ooh, Ooh
You know they all say
That you're much more than this bust-up face deserves
But they don't get you need the dishes I serve
And I don't tell them 'cause your dignity comes first
I've got to keep you coming home!Chorus:
I've got to love you every night
Got to need you every night
Got to love you every night
Got to need you every nightIn summation
The battle's been fought and it's been won
And you have told me you don't know why you run.
But I don't care 'cause you come back for my love
I always keep you coming home!Chorus:
Got to love you every night
Got to need you every night
Got to love you (got to love you) every night (got to serve you)
Got to need you (got to need you) every night (got to love you, got to serve you)Too many times,
Too many times I have waited in line
Waited in line,
Waiting my turn, but not tonight,
Tonight breaks established rules
The stalemate we've been caught up in for too long
Tonight!Chorus:
Got to love you (got to love you) every night (got to need you, got to serve you)
Got to need you (got to need you) every night (got to love you, got to serve you)
Got to love you (got to love you) every night (got to need you, got to serve you)
Got to need you (got to need you) every night (got to love you, got to serve you)
Oh Ohhhhhh
Got to love you
Got to love you
Got to love you
