

# Still Waiting 4 U

## Brokencyde

And everyday i see you there WITH HIM  
holding your hand he's trying to KISS YOU  
i try so hard i wanna be WITH YOU  
cuz i can't take this pain, cuz i MISS YOU  
i won't let go, my heart will not LET ME  
so i'm alone, just feeling so EMPTY!  
i'll kill myself, let the devil come GET ME  
and take away, the pain that you LEFT ME!

verse 1:

well i admit it  
im jealous, i feel like giving up  
will kill myself  
but something tells me you wont give a fuck!  
and i don't want to waste my time  
if it aint worth it  
i could jump off a roof on purpose  
until i hit the surface  
so fuck the pain  
fuck the past  
and fuck your new friend  
i don't want nothing' to do, with nothing' you are doing [x2]  
[chorus][verse 2:]and i don't want to loose  
the love of my life

i can't take you no where now  
you probably fucked other guys  
i mean, your already with one  
atlas i lost everything  
i know there's better things out there,  
but your my everything  
the one im still alive for  
the one i won't loose  
thats why ill do anything  
just to hold you [x2]  
[chorus][verse 3:]about a year has passed me  
i still miss you  
i still see you with that same guy  
that tried to kiss you  
im by the phone,

waiting for you to come home  
im on my own  
never told you to leave me alone  
so tell me,  
exactly how am i supposed to react  
before you left me  
you told that you were gonna came back [x2]  
[chorus]
