

All I Need Is Everything

Aztec Camera

Tears, just like the jewels
Adorn their corporate crown
Weigh on me worthless and I
Shake them down and leave now
And have no royal things You, would consecrate the ground
I paced in pain
And though those pavements
Caught your sorrow stains They fall from me and I say
Maybe don't fall for anything
That says it's never gonna
Give you everything I wish myself into your arms
To know that all I need is everything The size of the sea, and the sun in my eyes
And the line in my head
Yearning for more, only for more
These days are as bright as the days I have seen
In the wildest of dreams
Yearning for more, only for more I wish myself into your arms
To know that all I need is everything Hold back the night, I am tired of my sight
That won't see anymore
More than today, threatening to stay Hold back the night, I am tired of my sight
That won't see anymore
'Show me you care,' is 'Show me the door'
