

No Other Way

White Hills

Darlin', frustration, it gets me
It gets me when it hurts me most
If I rather did the, it's not easy to see
I've become far, far too long
Accept you from the even again
Then I hope you'll still find a guy
You need for your fool
'Cause life is upon you on the road
And it's it's something
About the whole thing that doesn't feel
Bent my knees for you 'cause I love you
But I don't want you, I need you
I can see all what it mean
(Now what it means, now what it feels)
Frustration, it gets me
When it hurts me most
If I rather did the easy to see
And I've become far, far too long
Accept you from the even again
I guess I hope
I'm still the kind of guy you need
'Cause life upon on the rode these
It's something
About the whole thing that doesn't feel
Bent my knees for you 'cause I love
I don't want you, I need you
I can see all what I mean
Oh darlin'
I bent my knees for you 'cause I love you
But I don't want you, I need you
I can see all what it mean
(Now what it means, now what it feels)
