

# Whitehouse

## (hed) P.e.

My niggaz in the whitehouse  
We got the Fascists on the run  
My niggaz in the whitehouse  
Rednecks hide your guns  
My niggaz in the whitehouse  
The revolution has begun  
My niggaz in the whitehouse  
Welcome to the future  
Don't be such a sore loser  
Black in the whitehouse  
See the color of change  
Things will never be the same  
Let the middle class reign  
Now anything can happen  
When a slave becomes the master

Your hierarchy is shattered forever  
No turning back now  
Welcome to you future  
Say goodbye to the past  
Black in the whitehouse  
We the people have spoken  
The system is badly broken  
We will never give up  
The corporate control is dyin  
The cointelpro is lyin  
What you're sellin - We're not buyin  
The truth is rising!  
Welcome to the future don't be such a sore loser!
