

# Radio Silence

## Styx

Clear blue skies above  
And all I feel is love  
In this dream  
Sand, water  
The earth beneath my feet  
I feel complete I wake to darkness  
Remembering the fear  
I really hear  
So far away  
Lost, helpless  
Were words I'd never say  
Until this day  
Yeah, yeah All I get is  
Radio silence  
(It's all on me)  
No communication  
Radio silence  
Anybody, can you hear me?  
I need a little mercy  
It's gonna take a little faith to see  
The Mission  
It all comes down to me Full engines on  
Separated from the mother ship  
Retro rockets fired  
This is real  
Hypergolic fumes  
Hyperbolic tunes  
It's a symphony of fear  
But I'm still here  
Yeah, yeah  
All I get is Radio silence  
(It's all on me)  
No communication  
Radio silence  
Anybody, can you hear me?  
I need a little mercy  
It's gonna take a little faith to see  
The Mission  
It all comes down to me

And only meSOS  
It's anyone's guess  
Can we make it?  
Tied to the beast  
I'm just a small piece  
Out here naked  
It's a sacred ship  
But step by step  
I'm gonna save it  
Heaven knows I need my crew  
But how the hell do I get through to you?Radio silence  
(It's all on me)  
No communication  
Radio silence  
Anybody, can you hear me?  
I need a little mercy  
It's gonna take a little faith, I see  
The Mission  
It all comes down to me  
And only me
