

All Through The Night

Status Quo

All through the night
Oh oh all through the night
All through the night
Lonely day, lonely nightVerse 1:
All alone again
I never get my way
It's never been the same
I know what I had done before
But now it's gone for evermore
I want you back again
I never get my wayChorus:
All through the night
Lonely day, lonely night
All through the day
Lonely night, lonely dayVerse 2:
Once upon a time
I didn't really care
I lost so many times
But then I had my share
I got a feeling here inside
And now I know you're here inside my mind
I want you back again
I never get my wayChorus:Verse 3:
Baby, baby, I just can't go home
Callin', callin'
Baby, baby, just won't let you go
Baby, Holdin, I won't let you goChorus:
