

# Come On, Come On

Billy Idol

Darlin' through these clothes that I bought you no less  
Won't get you what you need on  
The trouble crosses and then  
It's only your fixes that did never fit No one's gonna make you cry for your love life tonight  
Ohhh, how do I know  
It's because I believe  
In a love that is so strong  
It's a love crush number one  
If a love crush says come on  
Come on, come on, come on, come on  
Come on  
Yea I said come on  
Wow, I said come on  
Yes like this  
Come on, come on, come on, come on  
Come on  
Yes like this Yes, you know raving crazy to say things  
I did you were sure  
We don't need no panic patches some more  
Look reality forbids you pin don't you feel it No one's gonna make you fight your love life tonight  
Oh no, why do I know  
It's because I believe  
In a love that is so strong  
It's a love crush number one  
If a love crush says come on  
Come on, come on, come on, come on  
Come on  
Yea I said come on  
Wow, I said come on  
Yes like this  
Come on, come on, come on, come on  
Come on  
Yes like this
