Be My Reason

Veronica Ballestrini

I wanna know what you talkin' about
I wanna know with that happen to doubt
here we rush into my soul
feel it to the shows
down to my thoughts, and

I wanna hold thought for something 'dat real
I wanna touches so i know how it feels
wanna wake a bared day
with nothin' in a way
take my breath away

all matter is that held the feeling
something to around to
someone to believe in
will you be my reason? be my reason?
I just wanna feel sometin'

all matter is that hang the love
the one is in my whole life dreamin' of
will you be my reason? be my reason?
I just wanna feel someday...ay like this
come on let me feel someday..ay like this

I wanna love thas beautiful miss
every breely feelin' nothing less
wanna look in someone's eyes
feel the butterfly
may the question why?

all matter is that hide the feeling
something to around to
someone to believe in
will you be my reason? be my reason?
I just wanna feel sometin'

all matter is that hide the love
the one is in my whole life dreamin' of
will you be my reason? be my reason?
I just wanna feel something...in' like this

come on let me feel someday...ay like this

all the matter is that hide the feeling
something to around to
someone to believe in
will you be my reason? be my reason?
I just wanna feel sometin'

all matter is that hide the love
the one is in my whole life dreamin' of
will you be my reason? be my reason?
I just wanna feel something...in' like this
come on let me feel someday...ay like this

and I wanna know what you talking about
I wanna know with that happen to doubt
here we rush into my soul
feel it to the shows
down to my thoughts..
