Low Low Low

Heartless Bastards

Well I left my home and I'm startin' to roll
A new beginning here out on my own
I'm feeling the sun so warm on my skin
Things are turning around again
For a long time I've been on the mend
And I don't need no more medicine
I'm filled up with cold, my future is bright
And give me some sunshine, give me sunshine
Coming round the bend, coming round the bend
I've waited so long, waiting so long
I'm getting used to being alone
I'm getting used to out on my own

Fore a long while I thought I wouldn't pray
But now I know that it just takes a while
I'm always low low low low low low...
And I open my arms out, open wide
And I swallow my fears I cannot hide
And it's been such a long long time
And it's been such a long time
Coming round, round the bend
I'm always low low low low low low...
I, I left my home and started to roll
A new beginning here out on my own
