

# Master of the Wind

## Van Canto

(Manowar cover) In the silence of the darkness when all are fast asleep

I live inside a dream calling to your spirit

As a sail calls the

wind, hear the angels sing Far beyond the sun across the western sky

Reach into the blackness find a silver line

In a voice I

whisper a candle in the night

We'll carry all our dreams in a single beam of light Close your eyes, look into the dream

Winds

of change will winds of fortune bring

Fly away to a rainbow in the sky gold is at the end for each of us to find

There the road

begins where another one will end

Here the four winds know who will break and who will bend

All to be the master of the

wind Falling stars now light my way

My life was written on the wind

Clouds above, clouds below

High ascend the dreams

within When the wind fills the sky the clouds will move aside

And there will be the road to all our dreams

For any day that

stings two better days it brings

Nothing is as bad as it seems

Close your eyes, look into the dream

Wins of change will winds

of fortune bring Fly away to a rainbow in the sky gold is at the end for each of us to find

There the road begins where another

one will end

Here the four winds know who will break and who will bend

All to be the master of the wind Fly away to a rainbow in the sky gold is at the end for each of us to find

There the road begins where another

one will end

Here the four winds know who will break and who will bend

All to be the master of the wind Fly away to a rainbow in the sky gold is at the end for each of us to find

There the road begins where another

one will end

Here the four winds know who will break and who will bend

All to be the master of the wind Fly away to a rainbow in the sky gold is at the end for each of us to find

There the road begins where another  
one will end

Here the four winds know who will break and who will bend

All to be the master of the wind
