

Midnight Daydream

Jameson Rodgers

Baby I broke down and went and found somebody new
She ain't from Mississippi but she looks a lot like you
And something crazy happened when I took her home last night
She invited me inside, she turned down all the lights

I found myself inside a Midnight Daydream
Baby if you saw it then I know it may seem
Like I'm moving on
But every time I touch her every time I taste her kiss
I just feel your lips
I can't snap out of this

Midnight Daydream
Like I'm still with you

Midnight Daydream
Dammit girl I miss ya

She led me up the stairs and to a bedroom down the hall
Put her hands under my shirt and pinned me up against the wall
She kissed me on my neck and whispered like you used to do
She was slipping off her dress and I was slipping in to
A Midnight Daydream

Baby if you saw it then I know it may seem
Like I'm moving on
But every time I touch her every time I taste her kiss
I just feel your lips
I can't snap out of this

Midnight Daydream
Like I'm still with you

Midnight Daydream
Dammit girl I miss ya

I watched her blue eyes turn to green
It was your hands all over me
Like you never broke my heart

Like nothing ever changed
Damn I almost called her by your name
By your name girl

Midnight Daydream

Midnight Daydream
Baby if you saw it then I know it may seem
Like I'm moving on
But every time I touch her every time I taste her kiss
I just feel your lips
I can't snap out of this

Midnight Daydream
Like I'm still with you

Midnight Daydream
Dammit girl I miss ya
