Well Well Well

Le Tigre

Got to, wanna, got to, wanna
Got to, wanna, got to, wanna
Raise your hand, raise your voice
Raise your head up from the desk
Look who's here, well, well, well
Guess it's time, show and tell
Well, what do you like? And what do you need?
How should I act and who should I be?
'Cuz I got it, I'm gonna give it to you
And you know it
What, where, when, how, when, who? oh
I'm gonna give you the answer tonight
I'm gonna give you the answer anytime, that's right
Well, I don't wanna take it slow
So tell me now I got to go, 'cuz I got it
I'm gonna give it to you and you know it
What, where, when, how, when, who?

Or should I supersize it, supersize it, supervise it, oh, yeah
Or should I supersize it, suersize it, supersize it, oh, yeah
Or should I supervise it, supersize it, supersize it, oh, yeah
Or should I supervise it, supervise it, supersize it, oh, yeah
Raise your hand, raise your voice
Raise your head up from the desk
Look who's here, well, well, well
Guess it's time, show and tell
Got to, wanna, got to, wanna
Got to, wanna, got to, wanna
Oh, what should I do? And where should we go?
What should I bring?
I think you know that I've got it
I'm gonna give it to you
And you know it
What, where, when, how, when, who?
