

Bad Tattoo

Lola Blanc

3:00am and I know just where you're at
Locked up in your room playin' StarCraft
And I'd be cool if some of that energy
Went into learning how to run your game on me But you know
Just the way to make me feel
No one gets me like you do
Nothing matters with just one touch, one touch, just one Yeah you are kinda like a bad tattoo
I didn't really think it through
It's like you got under my skin and I'm scratchin'
There ain't no remedy for this a-reaction You get on me like cheap perfume
And it don't matter what I do
I could cover up the ink if I had to
But honestly I'd rather be in this bad tattoo Three inch glasses still you're colorblind
Green shirt, red pants, you think you look fine
But that's okay 'cause it goes so perfectly
With the green in my eyes and my ruby lips, baby You know just the way to make me feel
No one gets me like you do
Nothing matters with just one touch, one touch, just one Yeah you are kinda like a bad tattoo
I didn't really think it through
It's like you got under my skin and I'm scratchin'
There ain't no remedy for this a-reaction You get on me like cheap perfume
And it don't matter what I do
I could cover up the ink if I had to
But honestly I'd rather be in this bad tattoo Yo, yo, yeah
Yo, yo, yeah There's nothing I can do no
I guess I'm stuck with you so Yo, yo, yeah
Yo, yo, yeah I'll never get another
I've got this one forever You know just the way to make me feel
Just one touch, one touch, just one Yeah you are kinda like a bad tattoo
I didn't really think it through
It's like you got under my skin and I'm scratchin'
There ain't no remedy for this a-reaction You get on me like cheap perfume
And it don't matter what I do
I could cover up the ink if I had to
But honestly I'd rather be in this bad tattoo You are kinda like a bad tattoo
I didn't really think it through
It's like you got under my skin and I'm scratchin'
There ain't no remedy for this a-reaction You get on me like cheap perfume
And it don't matter what I do

I could cover up the ink if I had to
But honestly I'd rather be in this bad tattoo
