

# Floating

## Jape

We took our first pill when  
The music was shit  
I said "fuck dancing all night"  
But then thats just what we did  
It felt like floooooating  
It felt like floating

Your body was warm when  
I laid by your side  
I said i'm glad i have found you  
And i'm glad we're alive  
It feels like floooooating  
It seems like floooooating  
It seems like floating

We laid by the river  
We looked at the stars  
I said "how tiny we are girl  
How tiny we are!"  
It feels like floooooating  
It feels like floooooating  
It feels like floating

A lifetime is short girl  
And death is so long  
I don't belive in no heaven  
I just hope that i'm wrong  
I hope we're floooooating  
I hope we're floating

Cause watching the world  
I don't understand  
It just makes much more sense with  
My hand in your hand  
It feels like floooooating  
It feels like floooooating  
It feels like floooooating  
It feels like floooooating  
It feels like floooooating  
It feels like
