

The Sinner Is You

[Volbeat](#)

What's life without a little pain
The good thing is on a little break
You'll be fine and up again, yeah
The goal is to bring the human back to the world
'Cause nothing will last
But bring it home as a friend, yeah yeah
Oh the sinner is you
The sinner is you I'm the collector of the good spirits of mother earth
Hell is life drying up, yeah
I see and hear more than I wish
The seal has broken up again
One life on earth fades away again
The sinner is you, the sinner is you There's been a kill in the spirit world
The ultimate sinner just don't know
There's been a kill in the spirit world
The ultimate sinner just don't know
Is there forgiveness
Do we all deserve our blessing
Is there forgiveness
Do we all deserve our blessing
From the spirit world Is this a sign for all of us
To take care of the life we have
Please wake up and feel the love, yeah I see and hear more than I wish
The seal has broken up again
One life on earth fades away again
The sinner is you
The sinner is you
