I Donâ€™t Need Anybody Else

Keir

Kill the brake with a siren
Put a knife to the silence
Till you open your eyelids
And see through the violence

Stuck with no air
Not a reason to care
I don't need anybody else
I don't need anybody else

Tell me if there's anything that I can do
I can wait just tell me that you'll stay here too

I don't need, I don't need anybody else but you
It don't parts me when you're lying here the whole night through
So I'm holding, holding, holding, holding on
holding, holding on
I don't need, I don't need anybody else but you

Used to sleep with the light off
I'll be there when the nights gone
Wake up to the sunshine
Oh the days when you were mine

Breeze in the air
Not a reason to care
I don't need anybody else
I don't need anybody else

Tell me if there's anything that I can do
I can wait just tell me that you'll stay here too

I don't need, I don't need anybody else but you
It don't parts me when you're lying here the whole night through
So I'm holding, holding, holding, holding on
holding, holding on
I don't need, I don't need anybody else but you

I (I)
Don't need (don't need)

Anybody (anybody)
Else but you (else but you)
x2

Tell me if there's anything that I can do
I can wait just tell me that you'll stay here too

I don't need, I don't need anybody else but you
It don't parts me when you're lying here the whole night through
So I'm holding, holding, holding, holding on
holding, holding on
I don't need, I don't need anybody else but you

I don't need, I don't need anybody else but you
I don't need, I don't need anybody else but you
