

Built for Speed

American Hi-Fi

Shes on fire like a rocket spinning out of control
Try to stop her but you just dont know how to keep it inside
C-c-can you keep on turning out, Ill wait for my turn
Same old story 'coz you never learn, gotta make it in timeShe dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock 'n' roll queen
I got a girl like that, my babys built for speedShoot to kill built to spill, got a mind take your pills
But your never gonna get to what thrills all of us inside
C-c-can you put the pedal to the metal this time
You gotta want it like I want it alright, we gotta start tonightShe dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock 'n' roll queen
I got a girl like that, my babys built for speedShes on fire like a rocket spinning out of control
Try to stop her but you just dont know how to keep it insideShe dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock 'n' roll queenI got a girl like that, my babys built for speed
I got a girl like that, my babys built for speed
Yeah my babys built for speed
B-b-babys built for speed, yeah my babys built for speed
