

# When You're Alone

## sElf

When you're alone  
In your own little world  
When you're alone  
In your own little world  
You're alone  
In your own little world  
When you're alone, in your own...When you're alone (You're alone)  
In your own little world  
When you're alone (In your own)  
In your own little world, you're alone (When you're alone)  
In your own little world, you're alone (In your own)  
In your own (When you're alone)When you're alone (You're alone )  
In your own little world  
When you're alone (In your own)  
In your own little world  
You're alone (You're alone)  
In your own little world  
When you're alone (In your own)  
And you roam (When you're alone)  
When you're alone (When you're alone)  
In your own little world  
When you're alone (In your own)  
In your own little world, you're alone (In your own)  
And you roam (When you're alone)  
When you're alone (When you're alone)  
In your own little world  
When you're alone (And you're owned)  
In your own little world  
You're alone (When you're alone)  
In your own little world (You're alone)  
And you're ownedAnd you're all alone
