Beautiful

Bosson

I do believe in fate cause that's how we met
It was raining and we were soaking wet
You took the last of cabs on an empty street
Then you smiled at me and said 'take a seat...'
I said do you believe in love at first sight?
You said if you give me a reason I might
Ok, well your hair is wet and your clothes are a mess
And your makeup is all over your face...
And still you're so...
[Chorus]
Beautiful, so, sweet and just adorable
You are a miracle, simply irresistible
You are so beautiful, so, sweet and just adorable
You are the finest thing that I've seen in my life
You're everything that I've ever dreamed of
Now it's been seven years 1 month and a day

Since we met and I'm so happy to say
Today we'll be man and wife and dedicate
Our lives to the precious thing we have called love
So now I'm standing here well dressed and prepared
In a black suit that you told me to wear
And when you're walking in, you amazing thing,
You take my breath away...
Cause you are so.....
[Chorus]
For richer and poorer till death do us part
In sickness, in health you are always in my heart
Till the day when we're old and grey
I will cherish and love you in every kind of way
You are so....
[Chorus]
