

# Holly Wood Died (Live In Vegas)

## Yellowcard

Accidents out on the highway to somewhere  
They tell us about when we we're young  
Rescuers working to clean up the crashes  
Before she can see what they've done Nobody told her she'd lose in the first round  
The last fight was fixed from the start  
Name's on her sidewalks they move through her body  
Like razors they cut through her heart  
Like razors they cut through her heart Hey, let go of all you know, let it fly away now  
What have you got to lose?  
And say out loud these words I've found  
I'll be there when you come down, I'll be waiting for you Night life the high life she just wants a good life  
So someone remembers her too  
But somewhere she heard there was some place to go  
When you die when you live like we do  
Die when you live like we do Hey, let go of all you know, let it fly away now  
What have you got to lose?  
And say out loud these words I've found  
I'll be there when you come down, I'll be waiting for you Hey, let go of all you know, let it fly away now  
What have you got to lose?  
And say out loud these words I've found  
I'll be there when you come down, I'll be waiting for you Hey, let go of all you know, let it fly away now  
What have you got to lose?  
And say out loud these words I've found  
I'll be there when you come down, I'll be waiting for you
