

# Follow The Light

## Dungeon Family

You don't use our music to get high  
Then use our music to get by  
Break Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something The time we're face in  
Get off your feet 'coz time is wasted in  
Must be strong in this situation in, well  
So raise your hand and let's start takin', let's start takin'  
Let's go, let's go, let's go, let's go Even in darkness darker than the Lochness  
Monster's dwelling it don't scare me, that's fairy telling  
But what about Hell and Heaven?  
Nothin' is that irrelevant, you must find yourself, your intent Don't commit thyself, 'coz another nigga done did  
it  
In and outta style like leather African pennants  
Say that you're with the spirit, follow the Ten Commandments  
Mad Mixmaster said, "Now can ya spin it?" Say now Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something Gipp the Epiphany  
I wanna be remembered in infamy  
Composer and producer of the symphony  
I done had struggles in my life, so I know that it was meant for me You was sent for me  
Showed me light through the power of Chi  
And your intent to see you teach for he  
Discretely givin' them a piece of me, the peace was free, gone What I need, what I want  
What I see is two different things, two different Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to something It was so elequentaly I emerged from the sorta verse  
Origin purpose be partially profound of the very power that's in me  
When God said He so loved the world  
That He gave His only begotten son I thought he meant me  
Jesus is my older brother evidently, experiment in me  
Let the complexity collapse the pocket quickly  
Life is but a dream, ya row ya boat gently It's cool to have a Bentley, I want a Bentley  
Yet I ponder why, I smoke my presence prominently  
If you want your mind blow, look we're all alone  
Follow the light Follow the lights they, lead to something

Follow the lights they, lead to something  
Follow the lights they, lead to something  
Follow the lights they, lead to somethingFollow the lights they, lead to something  
Follow the lights they, lead to something
