

Off The Chain

Selena Gomez & The Scene

Twisted, you've shaken my existence
When I'm with you baby
Bliss is all I've come to know
(Come to me)
Running, I didn't see it coming
Blinded, it's so stunning
I don't wanna let you go
A thousand church bells ringing
I can hear the angels singing
When you call my name
You love is off the chain
(Off the chain, chain, off the chain)
The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain
(Off the chain, chain, off the chain)
Your love (off the chain) your love, your love
(Off the chain, chain, off the chain)
Your love (off the chain) your love (off the chain)
Your love (off the chain, chain, off the chain)
Coming, just keep the magic coming
You got me baby, crushing
But it feels like so much more
Just when, when I least expect it
You make it feel so epic
Like nothing I felt before
A thousand church bells ringing
I can hear the angels singing
When you call my name
You love is off the chain
(Off the chain, chain, off the chain)
The chemistry is crazy

And you make me feel amazing
And I can't explain
Your love is off the chain
(Off the chain, chain, off the chain)
Your love (off the chain) your love, your love

(Off the chain, chain, off the chain)
Your love (off the chain) your love (off the chain)
Your love (off the chain, chain, off the chain)
I'm not the type who gets crazy for someone
Not like me tripping on like next to nothing
Guarded my heart like a diamond ring
But love (chain) your love (chain) changes everything
Everything has changed, everything has changed
Everything has changed, your love is off the chain
Everything has changed, everything has changed
Now everything has changed, your love
A thousand church bells ringing
I can hear the angels singing
When you call my name
Your love is off the chain
(Off the chain, chain, off the chain)
The chemistry is crazy
And you make me feel amazing
And I can't explain
Your love is off the chain
(Off the chain, chain, off the chain)
Your love (off the chain) your love, your love
(Off the chain, chain, off the chain)
Your love (off the chain) your love (off the chain)
Your love (off the chain, chain, off the chain)
Your love, your love, your love, love (off the chain)
Your love, your love, your love, love (off the chain)
Your love, your love, your love, love (off the chain)
(Off the chain, off the chain)
