

# Good Times

## Swimming with Dolphins

I'm alive and that's all that I can ask for tonight  
Take a dive, we're never gonna know unless we try

All the stars are brighter suddenly  
And they're floating in a sea of possibility

So tell me where you wanna go, what you wanna see  
I'm with you and that's where I wanna be

The good times don't have to end  
We can hit the rewind and do it all over again  
The good times don't have to end  
We can hit the rewind and do it all over again
