Intro;

Please direct your attention to the TeleVision set in front you  
Play this record as frequently as possible  
Pay attention to what come through

Chorus;

With my eyes i can see,  
I stand i believe in what you say  
What you'll be  
On my knees i pray for grace to remain  
I've got that faith  
I know i'll receive a new day  
New day ..... New day  
I know i'll receive a new day  
New day  
I've got that faith i know i'll receive a new day.

VERSE1

I got a question if i may  
There's something i got to say  
It feels like its locked in a cell inside my brain  
I got the keys to explain  
How theses words became a slave  
How i use it or abuse it but never its never plain  
You know it I'm never playing  
work the work cos talk is lame  
All these talk about the fame is never without the shame that comes with the game mistakes bearing your name  
and the pain cuts through like bodies burning in flames  
So i'm quick to raise a finger  
why do we change  
Why do we linger  
Living comfortable without the ginger  
How do our mind become so hindered

Chorus

With my eyes i can see,  
I stand i believe in what you say  
What you'll be  
On my knee i pray for grace to remain

I've got that faith  
I know i'll receive a new day  
New day ..... New day  
I know i'll receive a new day  
New day  
I've got that faith i know i'll receive a new day.

I got something fresh  
Something new  
Something good  
Something cool

#### VERSE2

Yeah!  
listen!  
I really gotta work this out  
I'm never ever gonna drop this now  
I'm way to deep  
i'm under ground that's right i really deserve that crown  
Ain't nobody gonna hold me down  
Watch as i be winning every round  
Form a circle y'all gather round  
Its a new day here's what i found  
More grace to begin with  
Fresh new wit for the business  
Yeah we making a hit list  
Can I get a witness  
Anticipating the obvious  
We celebrating the God in us  
Though the world think we delirious mysterious and notorious  
Now they calling us out-casts  
They try to make us come out last  
But I serve a God,  
The present the future the past  
The first and the last we hit them with that blast  
Truth is superior to those facts  
we ain't relating with those acts  
We gone past those lies ties are never gon last

#### Chorus

With my eyes I can see,  
I stand i believe in what you say  
What you'll be  
On my knee I pray for grace to remain  
I've got that faith

I know i'll receive a new day  
New day ..... New day  
I know i'll receive a new day  
New day  
I've got that faith I know i'll receive a new day.
