

# Come On

## Green River Ordinance

Everywhere I look I see your smilin' face  
Every song I sing I sing in hopes you're listening  
When the tables turned I learned from my mistakes  
We're only human here after all, oh ohee oh

Don't walk away don't say good bye  
Don't leave me here no not tonight  
Don't walk away here like the other time

Come on come on  
If you want to make it right we can make it right  
Said its been too long to let go now give it up oh  
come on come on  
if you want to make it right we can make it right  
i said i won't be here when the mornin' comes

Even with your eyes closed do you hear my voice  
carryin the way you always love and left behind  
love's so unpredictable have we been blind  
We're only human here after all, oh ohee oh

Don't walk away don't say good bye  
Don't leave me here no not tonight  
Don't walk away like the other time

Come on come on  
If you want to make it right we can make it right  
I said its been to long to let go now give it up oh  
come on come on  
If you want to make it right we can make it right  
I said I won't be here when the morning comes no

I just wanna be the hand you hold when you're cryin'  
I just wanna be the voice that tells you it'll be alright and  
When your world is coming down and helps nowhere to be found  
Well I'll be here, well I'll be here, well I'll be here  
For ya

Come on come on  
If you want to make it right we can make it right

i said its been to long to let go now give it up oh  
come on come on  
If you want to make it right we can make it right  
its been too long to let go now  
Come on come on (x3)  
Come on come on
