## The Phoenix Within

“See what happens Larry!”

Sound-clip from scene in movie “The Big Lebowski” (1998)

By: Omar Feliciano

Verse 1:

It’s been a while since I finally caught a break  
No one around to come and shove shit in my face  
Rest assured I’m going to ride this vibe tonight  
I’m going to dance until I burn holes in my shoes

Pre-chorus:

& I’d be lying if I said I wasn’t looking for something else  
You know this city has an open door for everyone

Chorus:

Crank it up let the DJ do his thing  
Pick it up drop it down, baby move around  
Start a tab let the bartender pour it out  
Drink it up, drink it up, just throw it down  
No strings, no rings just you & I we’re free do our thing tonight

Verse 2:

I swear I work every single day  
9 to 9 slaving for the man  
I keep complaining but nothings going to change  
I’m alive & sensing who I am

Bridge:

From the floor in the club, to the door of your house  
In your bed in the dark, from your mouth to mine  
  
From your neck to your chest, every moment undressed  
You’ve got me, wrapped up in your thighs
