No Tomorrow

Squad Five-O

Well, there's a front moving in and a cold wind blowing
And outside I can hear the night calling me near
But inside I feel like a fire, I'm burning
'Cause can't you see baby, I believe I'm falling for youSo listen to me girl, you gotta tell me that I'm not alone
And my car's outside, I left it runnin' if you're willing to go
We can get away from here, disappear just me and you
(And no one has to know)We'll meet after midnight in the park
Undercover of the dark
But there ain't no tomorrow
(There ain't no tomorrow)So come on baby take my hand
We may never really understand the way we feel
But beneath the stars I'll hold you close
You'll be my girl where there ain't no tomorrowGirl, don't be afraid 'cause the night can set us free
And I'd do anything just to have you next to me
I swear to you tonight I'd fight and I would bleed
'Cause I can see baby, I believe that you're falling tooSo listen to me girl you gotta tell me that I'm not alone
And my car's outside, I left it runnin' if you're willing to go
We can get away from here, disappear just me and you
(And no one has to know)We'll meet after midnight in the park
Undercover of the dark
But there ain't no tomorrow
(There ain't no tomorrow)So come on baby take my hand
We may never really understand the way we feel
But beneath the stars I'll hold you close
You'll be my girl where there ain't no tomorrowNo tomorrow
No tomorrow
No tomorrowWe'll meet after midnight in the park
Undercover of the dark
But there ain't no tomorrow
(There ain't no tomorrow)So come on baby take my hand
We may never really understand the way we feel
But beneath the stars I'll hold you close
You're my girl where there ain't no
Beneath the stars we'll make our stand
I'm your man and there ain't no tomorrow
