

Heart's on Fire

John Cafferty

Silence in the darkness creeps into your soul
Envy moves the light of self control
The gate that holds you captive has the door
Burnin' with determination to even up the score
Heart's on fire, strong desire, rages deep within
Heart's on fire, fever's risin', high
The moment of truth draws near
Time will not allow you to stay still, no
Silence breaks the heart and bends the will
Defense is guilty passions out of control
Rules and regulations have no meaning any more
Heart's on fire, strong
desire, rages deep within
Heart's on fire, fever's risin', high
The moment of truth is here
OH! Is here
Oh yeeeeeeaaaaaah!
Heart's on fire, strong desire, rages deep within
Fever's risin', energizin', right up to till end
Heart's on fire (heart's on fire)
Strong desire (heart's on fire)
Rages deep within
Ooooh
FADES-
Fever's risin' (heart's on fire)
Energizin' (heart's on fire)
Right up till the end
Ooooh
Heart's on fire (heart's on fire) (heart's on fire)
Strong desire (heart's on fire)
