

Love in a Bar

Ryan Hurd

[Verse 1]

It wasn't []

It wasn't anything else

I guess that we just had it

I wasn't there to get drunk but it happened

Cause I never wanted to say goodbye

We were just friends, just hanging

Just sitting 'round waiting for somebody to cross the line

[Chorus]

We found love in a bar

In the back of a patio corner

Away from the lights

It was us and Corona

And hearts on fire like the cigarettes you smoke

When you drink now we can't turn back

Cause the words came out

And the truth can't lie

And we've been saying it with our eyes the whole time

That you have my whole heart

Yeah, we found love in a bar

[Verse 2]

You didn't say sorry

You didn't look away

Girl, you just said what I was thinking

You were't afraid

[Chorus]

Yeah, we found love in a bar

In the back of a patio corner

Away from the lights

It was us and Corona

And hearts on fire like the cigarettes you smoke

When you drink now we can't turn back

Cause the words came out

And the truth can't lie

And we've been saying it with our eyes the whole time

That you have my whole heart

Yeah, we found love in a bar

[Chorus]

Yeah, we found love in a bar

In the back of a patio corner

Away from the lights

It was us and Corona

And hearts on fire like the cigarettes you smoke

When you drink now we can't turn back

Cause the words came out

And the truth can't lie

And we've been saying it with our eyes the whole time

That you have my whole heart

Yeah, we found love in a bar

Yeah, we found love in a bar
