Latte

Fluxus

The madness of love
And what we'll do for it
Two walk through the fire
And just go through with it
To cancel your doubt
And fly into the sun
To go without
And feel like you're the lucky one
The mad things we do for love
We're caught in a world of lies
I just had the strangest dream
We won't get to do this twice
Lela lela lela lela pala tute
Jas kana medess medess anda latay
Lela lela lela lela pala tute
