## Last Day Of Summer

She was all I had  
She was the world  
And when she left me  
I fell into sinShe's not here  
When I'm sad  
Her last words in my head  
are liesThis time I'll choose the words  
So I'll find myself  
I'm not alone  
because of a new road under my feet  
A new sun has risenI'll never be able to bring you with me  
She'll never be able to take me away  
She'll never be able to take me awayHeaven on me  
When she looks at me  
An angel's feather on her faceThis time I'll choose the words  
So I'll find myself  
I'm not alone  
because of a new road under my feet  
A new sun has risenI'll never be able to bring you with me  
She'll never be able to take me away  
She'll never be able to take me away
