

Four Words From A Heartbreak

Heather Headley

What's the use of crying for It doesn't change The fact that love's a fragile thing Like... Monday I was your
everything But Tuesday you had news to bring You have to go It's just the way somebody told me...
Chorus: Your four words from a heartbreak (just four) Four words from a mistake (just four) Your four words
from a heartbreak
He's leaving It's over Hey sorry And goodbye Maybe All we have is now Promises fade somehow Don't tell me
please About the love we'll share tomorrow Do you Remember the plans we made They're lying in the shallow
grave Next to all The shattered dreams Like someone told me
(Chorus)
Goodbye Sorry It's over It's over Goodbye He's leaving But the pain isn't over
(Chorus)
