Bless You (feat. Mikael Simpson)

Lulu Rouge

Kick the door in,
move around
set it all up and got down
please come inside you'll never guess what you'll find, we'll set it all up, unless you know it got down
bless you don't worry bless you
bless you don't worry bless you
kick the door in moose around, set it all up and got down,
please king around you'll never guess what they found
