Llove

Kaskade

One, one, two, three,
You know L-L-O-V-E
Peaking through the window
Trying to get a look see, look see
Four, four, five, six,
I know how to get my kicks
You may think that this is light
Waiting for the remix, remix this
Sometimes I don't have much to say
Words just get in the way
Feelings come from a place
Far away from the face
Sometimes I just wanna sing softly
Sing softly, sing softly, sing

Hey hey you you
One more time will get us through
Turn the clock so we don't see
Happy just to be
One, one, two, three
You know L-L-O-V-E
This rhythm is sublime
And so are we
Sometimes I don't have much to say
Words just get in the way
Feelings come from a place
Far away from the face
Sometimes I just wanna sing softly
Sing softly, sing softly, sing
