Better Love

Eisley

How can I unwind You
(Slipping in my own blood)
When I can't unwind myself?
Oh God, why can't I stop
(Licking on my own wounds)
When I've found my place with You?
Oh, oh, oh
Make me a better love
Make me better love
Make me a better love
Because I've finally found out
(You're on my side)
With a bullet for the bad guys
(Hallelujah)
Yeah, I've finally found out
(You're on my side)
And if You're my guide I'm Your guide
(Hallelujah)
Fear finds weakness in numbers
(That's why we stick close)
We're gallant, we're strong, we're safe
(Oh, oh, oh)
You chose me, You are the first born and an Angel
(You're so brave)
Now I can brave myself
Make me a better love
Make me better love
Make me a better love
Because I've finally found out
(You're on my side)
With a bullet for the bad guys
(Hallelujah)
Yeah, I've finally found out
(You're on my side)
And if You're my guide I'm Your guide
(Hallelujah)
Make me a better love
Make me better love
Make me a better love

Make me better love
Make me a better love
Make me better love
Make me a better love
Because I've finally found out
(You're on my side)
With a bullet for the bad guys
(Hallelujah)
Yeah, I've finally found out
(You're on my side)
And if You're my guide I'm Your guide
(Hallelujah)
