

# Here I Am

## Asking Alexandria

HERE I AM (ROCK VERSION) I'm not ashamed of my mistakes

I walked the path I had to take

It's made me who I am today This reign of hate is done

We're gonna take this over now

And we've only just begun Here I am

This is all of me

I'm not hiding

I'm standing tall for all to see Here I am

There is nothing bigger

Nothing brighter than a future I see So if you find it hard to breathe

You can put your faith in me

I'll be the light that leads your way We are the voice of a generation

So take your chance and don't back down Here I am

This is all of me

I'm not hiding

I'm standing tall for all to see Here I am

There is nothing bigger

Nothing brighter than a future I see (Take a stand)

(Take this chance)

(Don't back down) Here I am

This is all of me

I'm not hiding

I'm standing tall for all to see Here I am

There is nothing bigger

Nothing brighter than a future I see So take this chance

Don't back down

Take a stand

And never let them bring you down So take this chance

Don't back down

And never let them bring you down
