Night Time

Marsha Ambrosius

I can only be strong for so long
And I never give in til you're gone
I fight for control when you hold me tight baby
It's way too soon so I kiss goodnightAnd I there I lie (lie) in the night (in the night) wide awake
In the night time baby I
Feel it all (all), I see it all (all), I see your face (face)
In the night time baby
I done it all (all) in my dreams (dreams)
You and me (me)
In the night time baby
And if you call (call) me tonight (tonight) you will see (see)
In the night time baby (In the night time baby)I'm not trying to make you wait
And I'm lying if I say I can
And I know that I'm worth it I am babe
But baby I know you deserve it
I know you want it
You know I want itThere I lie, in the night, wide awake (awake)
In the night time baby I
Feel it all (all), I see it all (all), I see your face (face)
In the night time baby
I done it all (all) in my dreams (dreams)
You and me (me)
In the night time baby
And if you call (call) me tonight (tonight) you will see (see)
In the night time babyBaby won't you stay with me (yeah)
Stay with me
See we belong, it's meant to be
Baby won't you stay with me
Stay with meHere I lie, in the night, wide awake (awake)
In the night time baby I
Feel it all (all), I see it all (all), I see your face (face)
In the night time baby
I done it all (all) in my dreams (dreams)
You and me (me)
In the night time baby
And if you call (call) me tonight (tonight) you will see (see)
In the night time baby (In the night time baby)
