

One Love

Chico DeBarge

Mmmh , no, no, no, no, no, no
No, ah , ooh
Check it out, baby Should be wild
Better than me, fool
Be me
Rather than what I knew
It's dark
But night won't last for long
Oh , body's on
Said, I'll be One love, one love, one love
One love, one love, one love
One love, one love, one love
One love, one love, one love Seemed to be cool
From the start
But he lied
And it broke your heart
But I am another man
But I gotta be in me
Because I hit and ran, baby One love, one love, one love
One love, one love, one love
One love, one love, one love
One love, one love, one love Oh , oh , oh
One love, baby
One love
We one love, baby
Oh , oh , oh , oh One love, one love, one love
One love, one love, one love
One love, one love, one love
One love, one love, one love
