

Keep It Together

How to Destroy Angels

I feel the skin that separates us, start to fade
And when I lie on top of you, Im afraid
I can see right through myself, crystal clear
I am disassemblingI could disappear, disappear
There is a voice inside of me, I dont know
And all his words keep echoing trim and low
Ive been waiting for a sign to appearHe has a message waiting for me
But I dont wanna hear
I promise, I swear, I can not keep it together
I can not keep it togetherI can not keep it together
I can not keep it togetherI can not keep it together
I can not keep it togetherI can keep it together
I can keep it togetherI can keep it together
I can keep it togetherI can keep it together
I can keep it togetherI can keep it together
I can not keep it togetherI can keep it together
I can keep it togetherI can keep it together
