

Release Your Love

Grand Funk Railroad

Ah, baby, release it, talkin' about your love
Yeah, baby, release it, your love
Your love
Release your love to me
And put it in my heart where it's supposed to be
Release your love to me
'Cause girl, I can't live without it
Release your love to me
'Cause girl I'm gonna take you home
You ain't never gonna be alone
Unless you're out there on your own
You don't have to worry
Baby, release your love to me
And we're gonna make plans for eternity
Release your love to me
You'll never ever have to doubt it
Release your love to me
'Cause baby, that's the way that it's got to be
I know there's other lovers
But they just can't stick
'Cause none of them other lovers
Baby, can do my trick
I know there's other lovers

But they just can't stick
'Cause none of them other lovers
Baby, can do my trick
Release your love, release your love
Release your love, release your love
Release your love, release your love
Release your love, release your love
Release your love to me
And put it in my heart where it's supposed to be
Release your love to me
'Cause girl, I can't live without it
Release your love to me
We're gonna make plans for eternity
Release your love to me
There'll never be a doubt about it

Release your love to me
And put it in my heart where it's supposed to be
Release your love to me
'Cause girl I can't live without it
Release your love to me
We're gonna make plans for eternity
Release your love to me
