I'm Good

Chad Price

Bet you remember how I used to put it down
When you used to be my baby
We used to hang out at the crib or g-get around town
Till you switched the game up on me
You never realized what you had
Now that I'm gone, no, I won't be back
And I can smile 'cause it's over me
That's what get for trying to do me shady
And I heard about the chick you had in my car
Shoulda known the day would come when you would get caught
Never thought that I would ever take it this far
But you know what, you should've step your game up, game up
And you can't be mad now 'cause I'm on my G
I'm a play him the same way he tried to play me
Tell me how it feels now you sitting lonely
Thinking about me
You know that I'm good, shorty we ain't gotta talk about it
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
I'm good, shorty we ain't gotta talk about
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
And then he got the nerve to think that I'ma fall back
While he flaunts this chick in my face
What he don't know is I really don't care
I don't need that man for nothing
I got my own and I'm not concerned
Quit holding on, just let it burn
Can't touch you far as my eyes can see
Made up my mind and it's fine changing, no, no
And I heard about the chick you had in my car
Shoulda known the day would come when you would get caught
You never thought that I would ever take it this far
But you know what, you should've step your game up, game up
And you can't be mad now 'cause I'm on my G
I'm a play him the same way he tried to play me
Tell me how it feels now you sitting lonely

Thinking about me
You know that I'm good, shorty we ain't gotta talk about it
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
I'm good, shorty we ain't gotta talk about it
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
I'm good, shorty we ain't gotta talk about it
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
I'm good, shorty we ain't gotta talk about it
And you should, get other guys man, I wish you would
Go and do that to somebody else
Don't try to run that bullsh** on me
But you know what, you should've step your game up, game up
