

I've Got A Quarter In My Pocket

Gary Allan

I've got a quarter in my pocket won't you tell me what I should do?

Should I put it in the phone so I can come crawling home to you

Or should I put it in the jukebox and play another heartbreak song

Well I'm leaning towards the latter and I really hate being alone Gonna flip it in the air, gonna watch it fly

If it's heads I might love again, if it's tails I'll cry I've got a quarter in my pocket won't you tell me what I should do?

Should I put it in the phone so I can come crawling home to you

Or should I put it in the jukebox and play another heartbreak song

Well I'm leaning towards the latter and I really hate being alone Here I am again on the same ol' stool

With the same ol' question at hand and the mind of a fool I've got a quarter in my pocket won't you tell me what I should do?

Should I put it in the phone so I can come crawling home to you

Or should I put it in the jukebox and play another heartbreak song

I'm leaning towards the latter and I really hate being alone

Well I've got a quarter in my pocket and I really hate being alone
