

# Angel On My Shoulder

## The 69 Eyes

I wanna feel you now,  
Like a thousand lies  
Bleeding out of your heart,  
Burning in the night  
Don't wanna see you crying,  
Fallen out of lightI wanna feel you now,  
Like an August rain  
Kissing summer goodbyes,  
I wanna see your pain  
Don't wanna see you crying,  
Fallen out of lightI don't wanna see you crying little angel on my shoulder,  
I wanna see you flying, back to heaven where you belongI wanna feel you now,  
Like a thousand knives  
Digging out of my heart,  
Burning in the night  
Don't wanna see you crying,  
Fallen out of lightDon't wanna see you crying little angel on my shoulder  
I wanna see you flying, back to heaven where you belongDon't wanna see you crying little angel on my shoulder  
I said alright, gonna get you crying  
Come hell or high water  
Since you've been goneDon't wanna see you crying little angel on my shoulder  
I wanna see you flying, back to heaven where you belongDon't wanna see you crying little angel on my shoulder  
I said alright, gonna get you crying  
Come hell or high water  
Since you've been gone  
Since you've been gone  
Since you've been gone
