

Shout It Out

Uriah Heep

She took me for a ride in her car
From the moment it started
I knew we we wouldn't get far
That didn't matter it seemed
Though I knew it weren't scheming
It was just like a dream
Oh, the joy, our love was grand
I swear I heard
Her little car singing
The day I first met my love
Oh, the day I first met my love
Then we went walking in the park
Away with the day
Till the day became dark
Ran hand in hand with the sun
Laughed at the rain
When it came along

Oh, the joy, our love was grand
As well the birds I swear the stars were singing
The day I first met my love
Oooh, the day I first met my love
Am I really standing here with you
Are you telling me you love me too
Will it grow
Can we let the world know
Put it about, shout it out, yeeah-ay!
Am I really standing here with you
Are you telling me you love, you love me too
Will it grow
Can we let the world know
Put it about, shout it out
The day I first met my love.
Yeah, yeah, first met my love.
