Passin' through

The Tumbleweeds

Livin? on the run is all I?ve ever known
One day here and the next day gone
Girl what you gonna do when I don?t run away with you
And you finally realize that I?m just passin? through?
Just passin? through, I?m passin? through
Well, I just rolled in and I?m gone like a wind
I?m just passin? through
I try to understand you?re out looking for a man
But you?re fighting 'em off just as hard as you can
Girl what you gonna do when I don't run away with you
And you finally realize that I?m just passin? through?
Just passin? through, just passin? through
Well, I just rolled in and I?m gone like a wind
I?m just passin? through
I gotta get away, you?re gonna try to make me stay
But if you love me set me free and I?ll be back someday
You thought you had me figured out but you didn?t have a clue
And you finally realize that I?m just passin? through
Just passin? through, just passin? through
Well, I just rolled in and I?m gone like a wind
I?m just passin? through
Well, I ain?t gonna stay no matter what you say
I?m just passin? through
