Movin' On

The Other Two

We put the bags in the car and we felt much better
She wants to drive but I wouldn't let her

You've got to take what you need, you've got to get right
Stop for a while in the morning light

She took a photograph, he never knew
It's getting harder, they could drive right through

And we saw the sun up in the sky
We talked about it and we wondered why
You think I'm weak but I'm getting stronger

He had a problem, another mouth to feed
She's feeling tired now and may start to weep
I used to think that you could love no other
You think I'm crazy but I'm never coming home

Hey hey yeah
And they saw the sun up in the sky
Living's not easy when they say goodbye
These are your hands and these are your choices
Sha starts to cry 'cause you've never going home

Hey hey yeah (X5)
You think I'm Weak but I am stronger
(Hey hey yeah)
You start to fight but I still love you anyway
(Hey hey yeah)
And another mouth is more than enough
(Hey hey yeah X2)

And we're never going home (Hey hey yeah X2)
And we're never going home (Hey hey yeah X2)

Another mouth is more, another mouth is more than enough (X3)
Another mouth is more than enough, another mouth is more
And we saw the sun up in the sky and we saw the sun (X8)
